Project name : Brhma CRM   Discussion Date : 22-07-24

Version : 1.1   Live Date : 01-08-24

Prepared By : *Sathis kumar R (Full Stack Developer)*

Approved By : Kannan R

Managed By : Santhosh

Summary
A brief overview of the updates made, including the main changes and their purpose.

Update Details :

1. Resume Upload
2. Profile Upload
3. Resolved dropdown issue when selecting the Walk-in HR field
4. Added comprehensive validations for Basic Details
5. Implemented validations for all fields in the Registration form
6. Updated the dashboard with additional fields like Nameboard and Posters
7. Added candidate image to the Report Card page
8. Added a button to view the candidate's resume

Description:

An additional tab has been added to the candidate registration page for uploading the candidate's resume and profile picture.

The candidate's image will be displayed on their report card, along with a button to view the candidate's resume as an image, PDF, etc.

Validations have been added for every input element on the basic details page:

- The mobile number must be exactly 10 digits.
- Only properly formatted email addresses will be accepted.
- The name field should contain only alphabets, with no numbers allowed.
- The age field should only accept numbers.

All fields are mandatory. The user cannot proceed to the next page without completing every input field.
